

PANDA FILM

By Cosio Industries Ltd

Panda film is a Black and White co-extruded polythene film suitable for greenhouse flooring and hydroponic gullies. The bright white side helps increase plant and crop growth.

Applications

- Greenhouse flooring
- Hydroponic gullies
- Wall lining

Advantages

- Black side helps to control weed growth
- White side gives better reflectivity for increased growth
- Insects are discouraged by the intense reflected light
- UV stable, Virgin resin

Technical specs

- Roll size - 125um 600mm x 400m
- Roll size - 105um 2m x 100m, Cut to length service
- Grade - UV stable, Virgin resin PE
