

QUARANTINE MESH

By Cosio Industries Ltd

Quarantine mesh is a finely woven HDPE anti-insect mesh used to help keep insects and pests from damaging crops.

By installing Quarantine mesh on all vents, doors, ventilation ports or any other access points this mesh should help to minimise insects from entering the glass or plastic house. Quarantine mesh will let water, light and air pass through.

Applications;

- Greenhouse / glass house doorways, ventilation ports
- Cloche frames
- Insect protection
- Vegetable gardens
