

ECOCIL

Light non woven weedmat

Ecocil is a lightweight, low cost, non woven weedmat ideal for domestic landscaping and weed control

Ecocil is intended to be used in domestic landscaping and weed control. It is lighter weight than Geocil and is a lower cost option. Ecocil is UV stabilised, but it is recommended to be covered with Bark or similar mulch materials to extend the life. Spray or remove all weeds prior to installing the weedmat.

Applications

- Landscaping
- Drainage / separation fabric
- Table cloth covering
- Weed control fabric

Advantages

- UV stabilised
- Easy to work with, will not fray

Technical specs

- Roll width - 0.9m, 1.83m
- Roll length - 10m, 20m
- Weight - 50gsm, UV stabilised PP
- Life expectancy 2-3 years depending on application & climate conditions

Use Cosio steel staples or plastic pins to fix Geocil to the ground.
