

JUTE-TEX

Biodegradable jute ground cover

Jute-tex is a biodegradable ground cover. Ideal for landscaping, re-vegetation or erosion control.

Jute-tex is ideal for re-vegetation or new planting. Jute-tex will help keep the soil conditions moist & help prevent erosion while your plants grow. Jute-Tex should be pinned to the ground using Cosio steel staples or plastic pins. Alternatively rocks can be placed onto the mat to help prevent wind lift. If you are planting through Jute-tex, carefully cut an X with scissors or a sharp knife. Jute-Tex is not a weed control mat, it may help to suppress weeds but it is not a replacement for woven weedmat.

Applications

- Erosion control
- Re-vegetation
- Landscaping
- Grass seeding
- Hanging baskets

Technical specs

- Roll size - 1m x 5m, 1m x 20m, 1.83m x 20m
- Average weight - 350gsm
- Colour - Natural beige
- Life expectancy 6-12 months depending on application & climate conditions. If Jute-tex is exposed to wet & warm conditions, it will begin to decompose quicker.
- Some discolouration is expected after time in weather.
