Ultra▶Pro

SUNSHADE

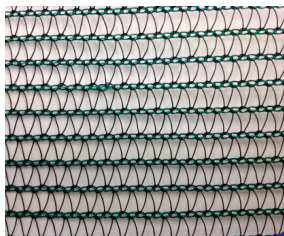

Premium horticultural shadecloth

Ultra-pro knitted shade cloths are manufactured from UV stabilised HDPE monofilament. Ultra-pro shade cloths are commercial quality, designed for NZ conditions and have proven results in the field with some shade cloths still in service after 15 years of use. Ultra-pro shade cloths are used in a wide range of applications from large commercial shade structures to domestic pergola shade protection. Ultra-pro shade cloths are stocked in a wide range of sizes & colours.

Cosio Industries are fabrication specialists and can offer custom sizes, eyelets, hem & drawcord plus other services.

Installation guidelines

Ultra-pro shade cloth can be installed using plastic shackles through the button hole eyelets, Cosio nail plates, timber battens or for larger jobs a hem & drawstring can be sewn into the fabric for use with wire & cables. Ultra-pro shade cloth will resist fraying and can be carefully cut to size with scissors or a sharp knife. See our "fixing accessories" brochure for more details on installation accessories.

Applications

- Commercial shade structure
- Domestic pergolas
- Visual barrier
- Debris fence
- Boat building - filtercloth
- Calf shelters
- Greenhouse
- Plant nurseries
- Heavy duty windbreak

Warranty conditions

Ultra-pro shade cloth is supplied with a 10 year pro rata warranty against UV degradation. Subject to installation, application and wind zone. Please note the use of some horticultural chemicals can significantly reduce the life of shade cloth. Shade cloth can shrink up to 2% over time, please allow enough slack when installing to allow for this shrinkage.
