*Consistently delivering...
Quality products and exceptional service*

Cosio Industries Ltd is a proudly 100% NZ owned and operated company founded in 1987 by Joe Cosio.

We are recognised as a leading supplier of plastic films, reservoir linings, geotextiles, knitted, woven and non-woven horticultural and agricultural textiles. Cosio Industries Ltd supply and service the following industry sectors:

**AGRICULTURE | HORTICULTURE
CONSTRUCTION | VITICULTURE | RETAIL**

Our staff are dedicated to the “old fashioned” concept of service and product knowledge to provide quality advice and products to help make your next project a satisfying experience.

From the Cosio head office and factory in Auckland, and our new purpose built factory in Christchurch, our products are available through a wide network of building supply, horticultural and agricultural merchants, stock and station agents and retail outlets in both North and South islands.

Cosio Industries Ltd has representation throughout NZ, giving us full sales support and coverage of the NZ market.

The Ultra Pro branded range of horticultural textiles are second to none and will give many years of top quality crop protection. We are a major supplier into the Kiwifruit & Avocado industry and other horticultural crop protection areas throughout NZ and the Pacific islands.

As a result of our experience in flexible membranes, we are the NZ and Pacific distributor for Firestone Building Products, a US company specialising in EPDM rubber lining membranes and fixing systems for dairy effluent storage and canal geomembranes. This product is being very widely accepted throughout NZ farming and business community as the optimum storage membrane solution.
