# HAILNET

Heavy duty knitted Hail netting

**Ultra-Pro HAILNET helps shield crops from damaging effects of hail, wind, birds, pests and offers light shading.**

Hailnet is a lightweight, cost effective solution for overhead canopies. Hailnet is designed for overhead hail, wind & bird protection and will also offer light shading of around 15-20%.

Hailnet comes with reinforced centres & edges and button hole eyelets on the sides to assist with installation.

Use shackles or cable clip lock to attach hailnet to wire or cables.

Hailnet can be cut to length, or manufactured to custom widths & lengths on a made to order basis.
