QUAD-NET

Heavy duty Quad Crossover

Quad hail-net helps to shield crops from hail, wind, bird and pest damage while providing light shading.

Ultra-pro quadnet is a heavy duty solution for overhead canopies. Quadnet is designed help protect crops from hail, wind and pest damage. Quadnet will also give light shading to help reduce sunburn. Quadnet has reinforced edges and strong fabric button hole eyelets for cable installation.

Shackles and cable clips can be used to secure quadnet onto wire & cables.

When cutting quadnet to length allow an extra 25-30% this will ensure the quadnet is the correct length when fixed at the stated bale width. Ultra-pro quad hail net has a length marker every 10m and black maker down the centre.
